

Weather and Climate

Understanding Weather and Climate

Look at the key terms listed on the overhead and decide if the term is related to climate, to weather or to both. Record the terms in the appropriate place in the Venn Diagram below.

2. If you were going to move to Canada, would you try to find out about climate or weather? Give reasons for your answer.

3. What has the weather been like in your area during the past few weeks? Are these conditions normal for your area at this time of year?

4. How do we know what is normal for this time of the year?
